UK Trade & Investment at The European Future Energy Forum

ExCeL, London: 19-21 October 2010

UK Trade & Investment (UKTI) invite companies to participate in Europe's largest exchange of knowledge on the future of energy at the European Future Energy Forum www.europeanfutureenergyforum.com at ExCeL in London.

UKTI has organised an extensive range of Free seminars and networking opportunities designed to complement the main conference programme aimed at promoting the UK's Renewable Energy objectives, capabilities, investment and development opportunities to a UK and international audience.

UK Trade & Investment at The European Future Energy Forum

ExCeL, London: 19-21 October 2010

The UKTI Energy Programme

The UKTI Energy programme will be held in the exhibition area of ExCeL within the UKTI Energy Igloo (www.igloovision.co.uk), an innovative and interactive approach to traditional exhibition stand design.

Highlights/Opportunities:

Developed in conjunction with leading Industry professionals, there will be a series of seminars and associated networking opportunities on:

- UK capabilities in Carbon Capture & Storage
- Sustainable Finance: attracting investment for renewable energy projects/innovations
- UK Low Carbon Economy and what it means to you
- Translating Existing Technologies into the Renewables Industry (Offshore Wind)
- Sustainable Cities/Green Building

Who Should Attend:

UK companies and organisations involved in new and renewable energy.

UK companies wishing to learn about opportunities in the new and renewable energy sector.

Professional and financial services companies.

Overseas companies and organisations wishing to learn about investment and potential partnership opportunities in the UK renewable energy sector.
